

ADMIN TRAINING

How to run HOSA Bayview online

Every feature an executive or trainer can use, and how to use it.

hosabayview.com

THE PLAN

What we'll cover

01

The basics

Roles, and how to get around the site on a laptop or phone.

02

Event rooms

Make a room for each HOSA event and get members in.

03

Tests and flashcards

Build tests, paste in past tests, and the Google Drive shortcut.

04

Chapter tools

Announcements, calendar, attendance, the admin page and stats.

01

The basics

Who can do what, and where everything lives.

Three roles, three levels of power

Executive

Admin. Sees everything.

- Every member, event, test, deck and file
- Change Trainee ↔ Trainer
- Warn, ban or remove members
- Post chapter announcements and events
- Take attendance for all events

Trainer

Runs their own events.

- Makes event rooms and join codes
- Adds tests, cards, files and links
- Sees grades for their own members
- Posts event news and class dates

Trainee

Every new account.

- Joins events with a code
- Takes tests, studies cards
- Makes their own decks
- Climbs the leaderboard

Only the chapter leads can make someone an Executive. Any exec can switch people between Trainee and Trainer.

THE BASICS

Getting around

ON A LAPTOP: SIDEBAR

Home

Events

Career

Profile

Chapter

Announcements · Calendar

Leaderboard · Resources

Your events

Admin · Members

More: Settings, Attendance, Log out

The bell

New announcements, events, posted tests and replies land here.

Settings

Light or dark mode, colours, text size, sound, phone notifications, and your events.

Install it

Settings › Phone app shows how to add the site to a home screen like an app.

02

Event rooms

One room per HOSA event. Like a Google Classroom class.

EVENT ROOMS

Make a room and get people in

1 **Tap “New event”**

In the sidebar, or the bar at the top of the Events page.

2 **Fill in the form**

Name, HOSA event, event type (MC, Practical or Showcase), description. Showcase has no tests.

3 **Hit “Make event”**

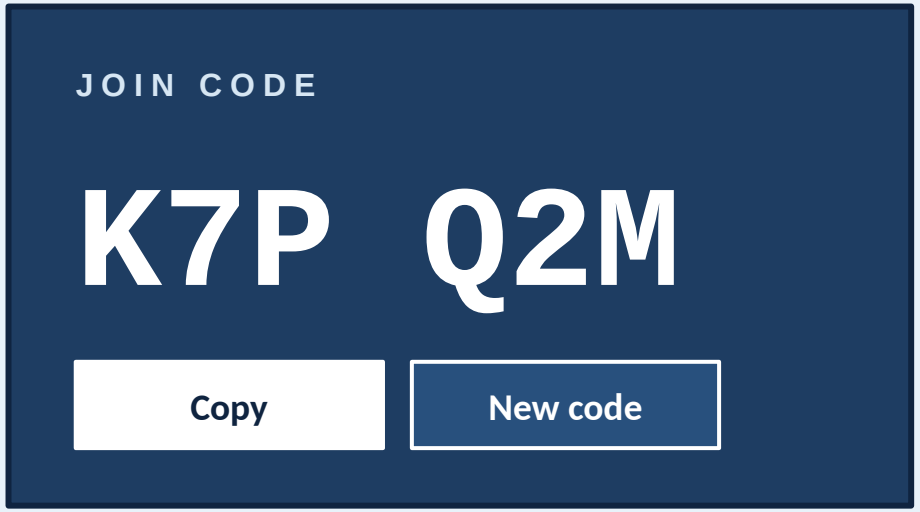

You land inside the new room straight away.

4 **Share the join code**

It's in the room's header. “Copy” it, or put it on the projector.

5 **Members join**

They tap “Join with a code” and type it in. Members can be in many events.

Code leaked? Tap “New code”. The old one stops working, and everyone already in stays in.

EVENT ROOMS

What's inside a room

Overview	Questions ▾	Resources	People	Attendance	Grades	Settings

Shaded tabs only show for the room's trainer and execs.

Overview

Room news (post and pin), who's online, and the Battle button.

Questions

A dropdown with Tests and Cards: the room's tests and flashcard decks.

Resources

Files (up to 50 MB) and links, grouped into sections like “Past tests”.

People

Everyone in the room. Trainers can see and manage their members.

Attendance

This week's roll (Attended, Late, Absent, Excused) and the weekly tracker.

Grades + Settings

Best score per member per test, CSV download. Settings edits or deletes the room.

03

Tests and flashcards

Build them by hand, paste them in bulk, or send them to me.

Making a test

1 **Questions › Tests › “New test”**

One tap makes a draft called “Untitled test”. Rename it right away.

2 **Add questions: “Write one”**

Question, 2 to 5 choices, tap the right letter, optional explanation.

3 **Or “Paste many”**

Paste a whole past test at once. The next slide shows the format.

4 **Set the details**

Time limit, attempts, show answers, shuffle. Then “Save details”.

5 **Tap “Post”**

Members can't see drafts. “Hide from members” takes it back down.

Grading is automatic

- Marked on the server the moment they submit.
- They see the right answers and explanations after (unless you turn that off).
- Answer keys are never visible before they submit.
- Every attempt counts toward stats and the leaderboard.

Paste a whole test in one go

PASTE QUESTIONS

```
1. Which bone is the longest?
A. Humerus
B. Femur
C. Tibia
D. Fibula
Answer: B
Explanation: The femur runs hip to knee.

2. Normal resting heart rate?
A. 30-50  B. 60-100  C. 110-140
Answer: B
```

Numbers	1. 1) Q1. Question 1
Choices	A to E, 2 to 5 of them. A. A) (A) or several on one line
Answer	Answer: B, Ans. B, or one answer key at the very end (1. B 2. C …)
Explanation	Optional. Explanation:, Rationale: or Reason:

Check the preview. Broken questions show as “Left out” with the reason. Tap an option to fix the answer, then “Add N questions”.

THE SHORTCUT

Got a past test? Drop it in the Drive

Bulk uploading is fiddly, so send past tests to one shared Google Drive folder and I'll put them on the site for you.

Find the test

A past competition test: PDF, Google Doc or Word, with its answer key.

Drop it in the Drive

Upload it to the shared folder (link below).

Name it clearly

Event + year, e.g. “Medical Terminology 2025”.

I upload it

It shows up as a test in that event's room.

GOOGLE DRIVE FOLDER

[paste the Google Drive folder link here]

Test settings that matter

Timed or practice

Put a number in “Time limit (minutes)” for a timed test. Leave it blank and it's practice only.

Show correct answers

Turn it off for a real mock exam: members only see a score and get 1 attempt.

Attempts allowed

Blank means unlimited. Practice runs of a timed test don't count.

Shuffle

Questions and answer choices shuffle by default, so neighbours can't copy.

Heads up: tests that hide answers or limit attempts can't be used in Battles.

Flashcard decks

1 **Questions › Cards › “New event deck”**

Title, description, pick the event, then “Make deck”.

2 **Add cards, or “Paste many”**

One card per line. Up to 300 per paste.

3 **“Share with event”**

Your decks are shared with the room. Members' own decks stay private unless they share.

```
Tachycardia - fast heart rate
Bradycardia: slow heart rate
Apnea→(tab)→not breathing
```

Split with a dash, a colon, or a tab (straight from a spreadsheet).

Study

Flip, Know it / Still learning

Match

Timed matching game

04

Chapter tools

Everything that runs the chapter, not just one event.

Announcements and the calendar

Announcements

- Chapter-wide: Announcements › “Post to the chapter”

execs only

- One event: the room's Overview › News › “Post”

its trainer or any exec

- Headline + details. Tick “Pin to the top” for important ones.
- Posting notifies everyone it's for (bell and phone).

Calendar

- Calendar › “Add an event”

Month or List view

- For: Whole chapter, one event, or Just me

Whole chapter is exec only

- Times are Toronto time. Add where and details.
- Everyone gets a “Today: …” reminder on the day.

CHAPTER TOOLS

Files and links

50 MB

max per file

1 GB

storage for the whole site

In an event

Resources tab › “Add a file or link”. Trainers and execs.

For the chapter

Resources in the sidebar is the chapter shelf. Execs add under “Add a resource”.

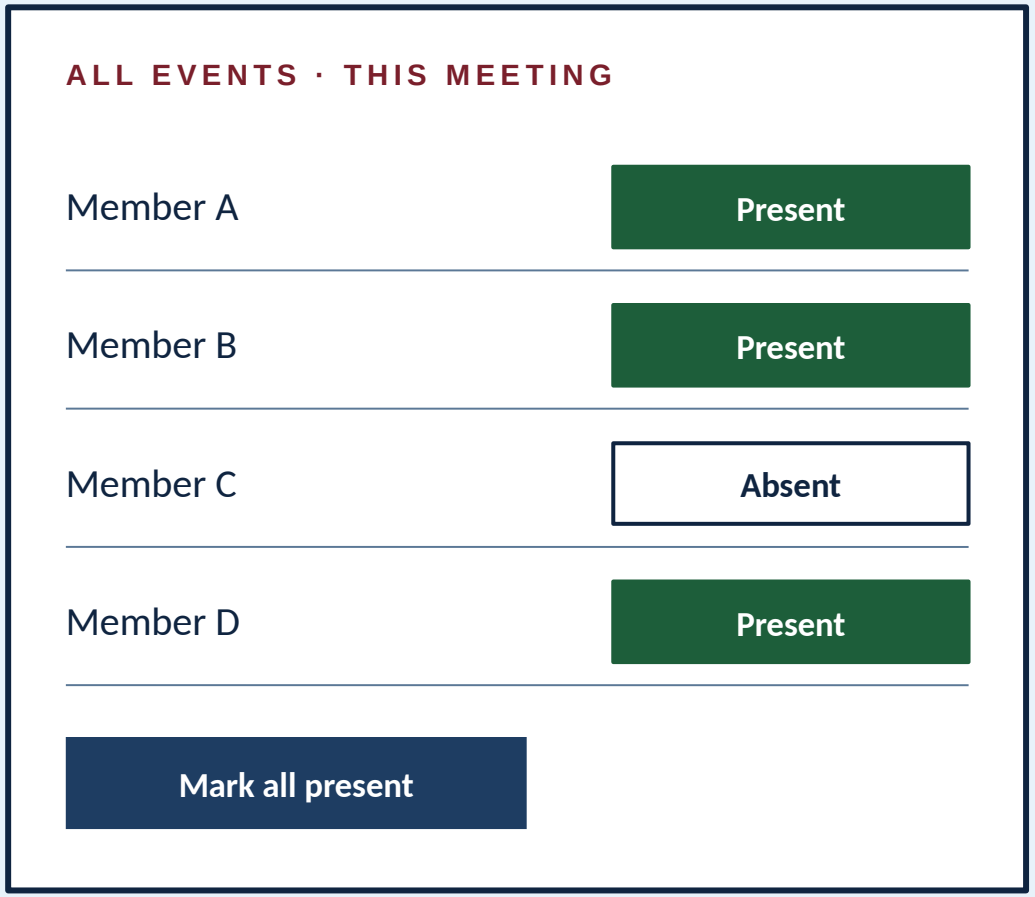

Use sections

Type a section like “Past tests” or “Textbooks” to group files.

Too big?

Over 50 MB, add it as a link instead (e.g. a Drive link).

Taking attendance

Admin › Attendance

Execs. Three tabs:

- All events: one meeting, every event, one tap each
- Season sheet: one event across the whole year, with totals
- Reports: who needs a check-in, perfect attendance, most absences

An event's Attendance tab

Trainers. Tap a name to cycle

- Attended → Late → Absent → Excused
- Nothing saves until “Submit attendance”

CHAPTER TOOLS

The Admin page

Execs only. Every member has a “Manage” button that opens their panel.

Role

Jobless, Trainee or Trainer. Confirm with “Yes, change it”.

Warn

Sends a message that sits at the top of their screen until they tap Got it.

Ban

1 day, 1 week, 1 month, a date, or for good. Lift it any time.

Chapter code

Set one and new sign-ups need it. Keeps strangers out.

All content

Every event, test, deck and file in one list, each with Delete.

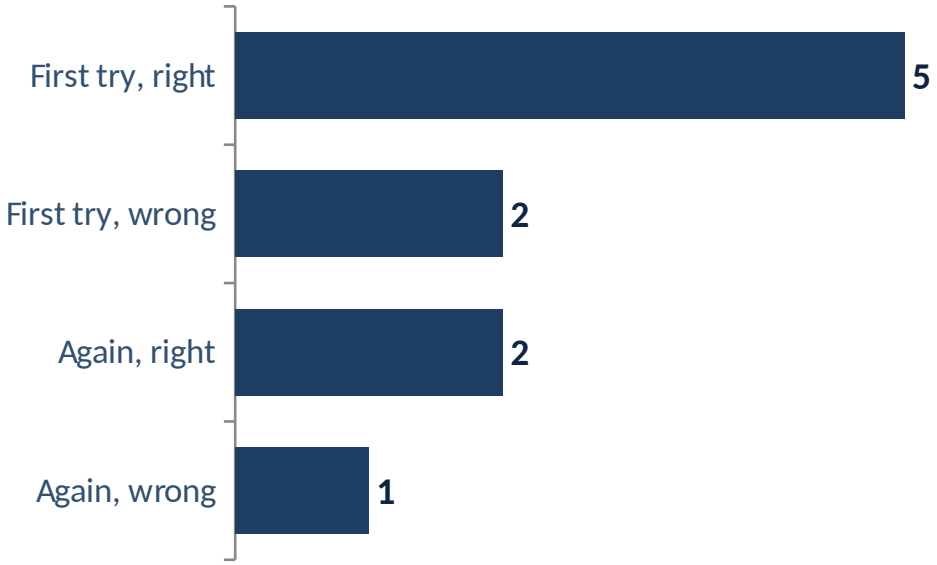

Admin log

Every role change, ban, warning and removal, with who did it.

Remove account deletes someone for good: you type their name to confirm. Nobody can warn, ban or remove an exec.

CHAPTER TOOLS

Stats, grades and Elo

Everyone starts at 0. Repeats count once a day. Daily sign-in +5, plus streak bonuses (up to 1.6× at 30 days).

Leaderboard

Rank by Elo, hours, flashcards, questions or accuracy. Filter by today, this week, this month or all time.

Grades tab

Best score for every member on every test, test averages, and a CSV download.

One student

Open a test › Results › tap a name to see every attempt and their answers.

CHAPTER TOOLS

The fun stuff

Battles

- Event Overview › “Battle”
- 1v1, 2v2, 3v3 or Teams (up to 20 a side)
- 5 to 30 questions. “Get a code”, friends join, host taps Start
- 20 seconds a round: 100 for right, up to 50 more for speed

BLC mock comps

SWITCHED OFF

- A timed practice competition the whole chapter can enter, no code needed
- Execs set when it opens and closes; tests stay hidden until then
- After it closes: a results board, then review and practice

BEFORE YOU GO

A few golden rules

Never make accounts for people

Members sign up themselves. Never ask for or handle anyone's password.

Set a chapter code at sign-up time

Turn it on in Admin when recruiting so only real members get in. Clear it after.

Keep mock exams honest

Turn off “Show correct answers” and set 1 attempt for anything that counts.

Deleting is for good

Deleting a test wipes everyone's attempts. Deleting an event wipes its files. No undo.

THAT'S IT

Go click around

Make an event, paste in a test, and post it. Stuck on something? Just ask.
